Dear Max

Can you tell me if things look positive in my career? My birth date is 4/4/1983.

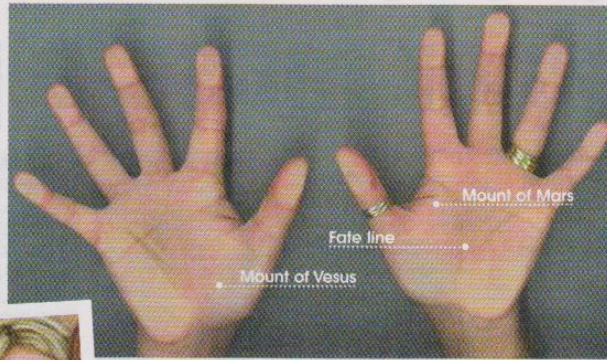

Cristina, Ashfield NSW

Dear Cristina

You are determined, driven and have a plan at all times. Your Mount of Mars and Mount of Venus show that men will like you, but women may struggle with you at times. Men tend to be less complicated for you. Your fate line, the line of career and work, shows you taking great steps forward from 27 to 30 years of age. Your career will shine. The turn on your Mercury (little) finger and your otherwise strong, straight fingers mean you cut

Cristina

through problems to achieve goals. Your hand reflects that you don't tolerate fools, so don't have them around. Your career looks great and you are at a high point in life. I can see that self-employment is on the cards.

Cristina replies

Max is spot-on. I am a very organised person, and I always have a plan. I tend to get along better with men in the workplace because I'm more comfortable

with their straightforward approach, and I do tend to tackle problems head-on. I've tried many jobs in my life, but nothing really fit, so I've decided to study photography, which is something I've loved since high school. The older I get the more intolerant of fools I become, especially since I became a mother and therefore wanted positive influences around my child. I'm thrilled my career looks good, and the prospect of self-employment is exactly what I'm working towards.
